

POLICY NUMBER: 9415 Placement of Competitive Teams

ISSUED : **REVISED :**

PURPOSE:

To insure the association's players are challenged to improve their skills, techniques and knowledge of the game.

Background:

1. Head coaches select the league and division in which their team is to participate. Coaches should attempt to place their team in a league that challenges their team; yet, allows them some success. If this is not occurring, then the board may dictate to a coach which league and/or division he should participate.
2. Coaches may elect to register their teams for more than one league. However, the players and/or parents shall be financial responsible for all expenses for the additional league or leagues.
3. The placement of teams may be restricted. If there is to be more than one St. Jane team in the same age bracket and league, teams shall be spread out among the various divisions. Certain leagues may also dictate division placement based upon previous records.
4. Teams playing in multiple leagues for a season shall give priority and preference to the AASYL, if participating, to game scheduling conflicts, etc.
